

# OPEN GPS TRACKER

---

**Tomáš Jiřík**

**Open-Source Programování**

(A4M35OSP)

## ABOUT PROJECT

- Project site:
  - <http://code.google.com/p/open-gpstracker/>
- Android application
- Development in Java with Android SDK
- Open Source (GNU GPL v3)
- Hosted at [code.google.com](http://code.google.com)
- Using Git version control system

## APP'S CAPABILITIES

- Similar to well known MyTracks (by Google)
- Recording your GPS position
- Displaying your actual position and track on a map
- Can use:
  - Google Maps
  - Open Street Maps
- Can be used with offline maps ([Mobile Atlas Creator](#))
- Can export and share your tracks

## MY JOB

- Add possibility to send SMS with your current location
- Using default SMS application

Open GPS Tracker

THANK YOU
